OVERVIEW

Precyse is leading national provider of Health Information Management (HIM) services and technologies. Precyse has enabled 1,000 hospitals and health systems to improve efficiency and deliver tangible outcomes through its advanced proprietary software and services. Precyse accelerates the capture and utilization of the patient story and advances the agenda of transforming clinical data directly into meaningful health information. Precyse services and solutions range from an integrated transcription and coding platform with advanced speech recognition, to expert computer assisted coding and workflow technologies with Natural Language Comprehension™, to HIM Strategic Sourcing, consulting and more. Precyse's flexible software can be delivered standalone or complemented by a professional staff of more than 1,200 experts.

1750 Founders Parkway, Suite 154, Alpharetta, GA 30009

FINANCIAL: \$74M in revenues

HISTORY

Precyse Solutions was founded in September 1999 as Capital MT, L.L.C. to provide outsourced medical transcription, medical coding and other document management services to U.S. - based hospitals and other healthcare providers. In July 2000, Capital MT acquired MediHealth Outsourcing, L.L.C., a provider of outsourced health information management services. Capital MT began operating under the name of Precyse Solutions in October 2001. Since then, through a series of acquisitions that integrated the services, technologies and expertise of industry-leading companies, Precyse has become the leading source for the most comprehensive suite of services and technologies in the Health Information Management industry.
